Data Visualization Tools: Power BI, Matplotlib

Statistical Analysis: Regression analysis, Hypothesis testing

Data Manipulation: Pandas, NumPy

Databases: MySQL

Tools: Excel, Google Analytics

Web scraping: BeautifulSoup, requests

## PROJECTS

### Data Analysis of T20 world cup match 2022

- **Objective:** The goal of this project was to analyze the performance of teams and players during the T20 World Cup 2022, providing insights into trends, key statistics, and factors influencing match outcomes.
- **Data Collection:**  
Collected data from the Kaggle website, which included comprehensive match statistics and player performance records.

#### Key Findings:

- Identified top-performing players and teams based on various metrics.
- Provided recommendations for teams based on data-driven insights. Developed an optimal playing XI based on performance metrics.
- **Tools Used:** Python, Pandas, Matplotlib, SQL, Power BI.
